

1. Science & Innovation

- Should humans colonize other planets?
- Is AI creativity comparable to human creativity?
- Should cloning extinct animals be allowed?
- Is space exploration worth its cost?
- Should human gene editing be legal?
- Is time travel theoretically possible?
- Should governments invest more in space research?
- Should we use CRISPR to prevent genetic diseases?
- Should lab-grown meat replace traditional meat?
- Should experiments on embryos be allowed?
- Should scientific data be made public?

- Is technology advancing faster than ethics can handle?
- Should nanotechnology be regulated?
- Should we terraform Mars?
- Should AI systems have ethical guidelines?
- Should 3D printing be used to create human organs?
- Is transhumanism the next stage of evolution?
- Should robots have rights?
- Should we fear artificial intelligence?
- Should gene patents exist?

2. Sports & Society

- Should athletes be role models?
- Should transgender athletes compete in women's sports?
- Should doping be legalized in professional sports?
- Should college athletes be paid?
- Should eSports be considered real sports?
- Should violent sports like boxing be banned?
- Should schools focus more on physical education?
- Are sports stars overpaid?
- Should gender equality be enforced in sports pay?
- Should athletes be punished for political protests?
- Should sports betting be legal?
- Should Olympic athletes be tested for drugs year-round?
- Is fan behavior becoming too aggressive?
- Should animal sports (like horse racing) be banned?
- Should referees use AI for decision-making?
- Should the FIFA World Cup have stricter ethics rules?
- Are sports essential for child development?
- Should governments fund national sports teams?
- Should cheerleading be considered a sport?
- Is performance pressure harming young athletes?

3. Business & Economics

- Should companies be required to pay a living wage?
- Should remote work be the new normal?
- Should internships be paid?
- Should corporate monopolies be broken up?
- Should billionaires exist?
- Should advertising to children be banned?
- Should cryptocurrencies be regulated?
- Should universal basic income be implemented?
- Should consumer data collection be banned?
- Should CEOs have salary caps?

- Should companies be responsible for climate change?
- Should governments bail out failing businesses?
- Should employees be allowed unlimited paid vacation?
- Should tipping be abolished?
- Should the minimum wage be increased?
- Should companies use AI in hiring?
- Should child labor laws be stricter globally?
- Should fast fashion be banned?
- Should small businesses receive tax breaks?
- Should insider trading be punishable by life sentences?

4. Gender & Society

- Should gender-neutral bathrooms be mandatory?
- Should feminism be taught in schools?
- Is gender equality achievable?
- Should men and women be drafted equally in wars?
- Are beauty standards harmful to women?
- Should gender pay gaps be criminalized?
- Should paternity leave be equal to maternity leave?
- Should media stop gender stereotyping?
- Should women be allowed in all combat roles?
- Are gender quotas in politics fair?
- Should advertising use unedited models?
- Should schools teach gender identity education?
- Is toxic masculinity a real issue?
- Should men's mental health get more attention?
- Should same-sex marriage be legalized globally?
- Is feminism still relevant today?
- Should gender reveal parties be banned for environmental reasons?
- Should there be more female CEOs?
- Should domestic chores be equally divided?
- Should beauty pageants be banned?

5. Culture & Society

- Should cultural appropriation be considered offensive?
- Should holidays like Christmas be secularized?
- Should public monuments of controversial figures be removed?
- Should traditional practices override human rights?
- Should museums return artifacts to their countries of origin?
- Should global languages like English dominate education?
- Should cultural diversity be prioritized over assimilation?
- Should religion be taught in schools?
- Should national anthems be changed to reflect modern values?
- Should historical films be fact-checked for accuracy?

- Should marriage still be considered essential?
- Should parents choose their children's religion?
- Should books that promote stereotypes be removed from libraries?
- Should freedom of religion have limits?
- Should all holidays be made inclusive?
- Should cultural symbols be trademarked?
- Should languages be preserved by law?
- Should traditional dress codes be allowed in workplaces?
- Should tattoos be acceptable in corporate environments?
- Should intercultural marriages be promoted?

6. Law & Justice

- Should juveniles be tried as adults?
- Should the death penalty be abolished?
- Should drug use be decriminalized?
- Should drunk driving have harsher penalties?
- Should hate crimes carry longer sentences?
- Should surveillance cameras be installed everywhere?
- Should police wear body cameras at all times?
- Should the war on drugs be ended?
- Should self-defense laws be redefined?
- Should privacy override police investigations?
- Should prisons focus on rehabilitation or punishment?
- Should graffiti be considered art or vandalism?
- Should cyberbullying be treated as a crime?
- Should parole be abolished?
- Should life imprisonment replace the death penalty?
- Should minors be allowed to sue parents?
- Should corporal punishment be banned globally?
- Should plea bargains be eliminated?
- Should the insanity defense be removed?
- Should online hate speech be punishable by law?

7. Science, Health & Future Ethics

- Should scientists be allowed to create designer babies?
- Should DNA databases be public?
- Should human enhancement be allowed?
- Should cloning extinct species be pursued?
- Should we control population through laws?
- Should artificial wombs replace pregnancy?
- Should lab-grown organs be patentable?
- Should AI replace therapists?
- Should aging be treated as a disease?
- Should science experiments on embryos be restricted?

- Should there be global rules on genetic modification?
- Should human-animal hybrids be studied?
- Should stem cell research be unrestricted?
- Should mind-reading technology be banned?
- Should medical data be sold to private companies?
- Should cryonics be legal?
- Should people be allowed to modify their DNA for aesthetics?
- Should healthcare robots replace nurses?
- Should nanotechnology in medicine be regulated?
- Should organ markets be legalized?

8. Travel & Globalization

- Should tourism to endangered ecosystems be banned?
- Should passports be eliminated in a globalized world?
- Should airlines pay carbon taxes?
- Should cultural tourism be restricted?
- Should travelers be taxed for pollution?
- Should visas be abolished within continents?
- Should countries limit the number of tourists annually?
- Should space tourism be allowed?
- Should animal tourism (like zoos) be banned?
- Should global citizenship be recognized legally?
- Should overtourism be punished?
- Should airlines disclose their carbon footprint?
- Should cruise ships be banned for environmental reasons?
- Should countries promote eco-tourism only?
- Should cultural preservation override tourism profits?
- Should working abroad be tax-free?
- Should travel influencers be regulated?
- Should tourism be banned in war zones?
- Should airlines offset carbon for each flight?
- Should countries limit visa extensions for tourists?

9. Family & Relationships

- Should parents track their children's online activity?
- Should children have the right to privacy from parents?
- Should divorce laws favor shared custody?
- Should same-sex couples be allowed to adopt?
- Should parents be punished for neglecting emotional needs?
- Should marriage licenses expire after a certain time?
- Should parenting classes be mandatory?
- Should corporal punishment be banned at home?
- Should child-free living be normalized?
- Should single parents receive more government support?

- Should grandparents have visitation rights by law?
- Should teen marriage be banned globally?
- Should surrogate motherhood be commercialized?
- Should parents be held liable for school shootings?
- Should adoption be fully open (non-anonymous)?
- Should family law be gender-neutral?
- Should prenuptial agreements be mandatory?
- Should domestic chores be legally shared?
- Should family size be limited for environmental reasons?
- Should parental leave apply to adoptive parents?

10. Arts, Literature & Pop Culture

- Should AI-generated art be considered original?
- Should controversial books be censored?
- Should museums charge entry fees?
- Should graffiti be legalized as street art?
- Should celebrities influence politics?
- Should movies portray historical accuracy strictly?
- Should violent video games be banned for minors?
- Should public funding support the arts?
- Should award shows be more inclusive?
- Should pop music lyrics be rated like movies?
- Should art created by AI be copyrighted?
- Should schools teach art appreciation?
- Should music streaming services pay artists more?
- Should libraries go fully digital?
- Should reality shows be regulated for ethics?
- Should creative works made by AI belong to humans?
- Should offensive art be displayed in public museums?
- Should film remakes be banned?
- Should literature with outdated values be reinterpreted?
- Should public art reflect political messages?

11. Miscellaneous & Thought-Provoking

- Should time travel (if possible) be regulated?
- Should people be allowed to sell their citizenship?
- Should luck be considered a skill?
- Should humans attempt immortality?
- Should conspiracy theories be censored online?
- Should privacy be optional in a digital world?
- Should people be allowed to live entirely off-grid?
- Should robots pay taxes?
- Should we use AI to predict crimes?
- Should dreams be used for psychological analysis?

12. Artificial Intelligence & Future Technology

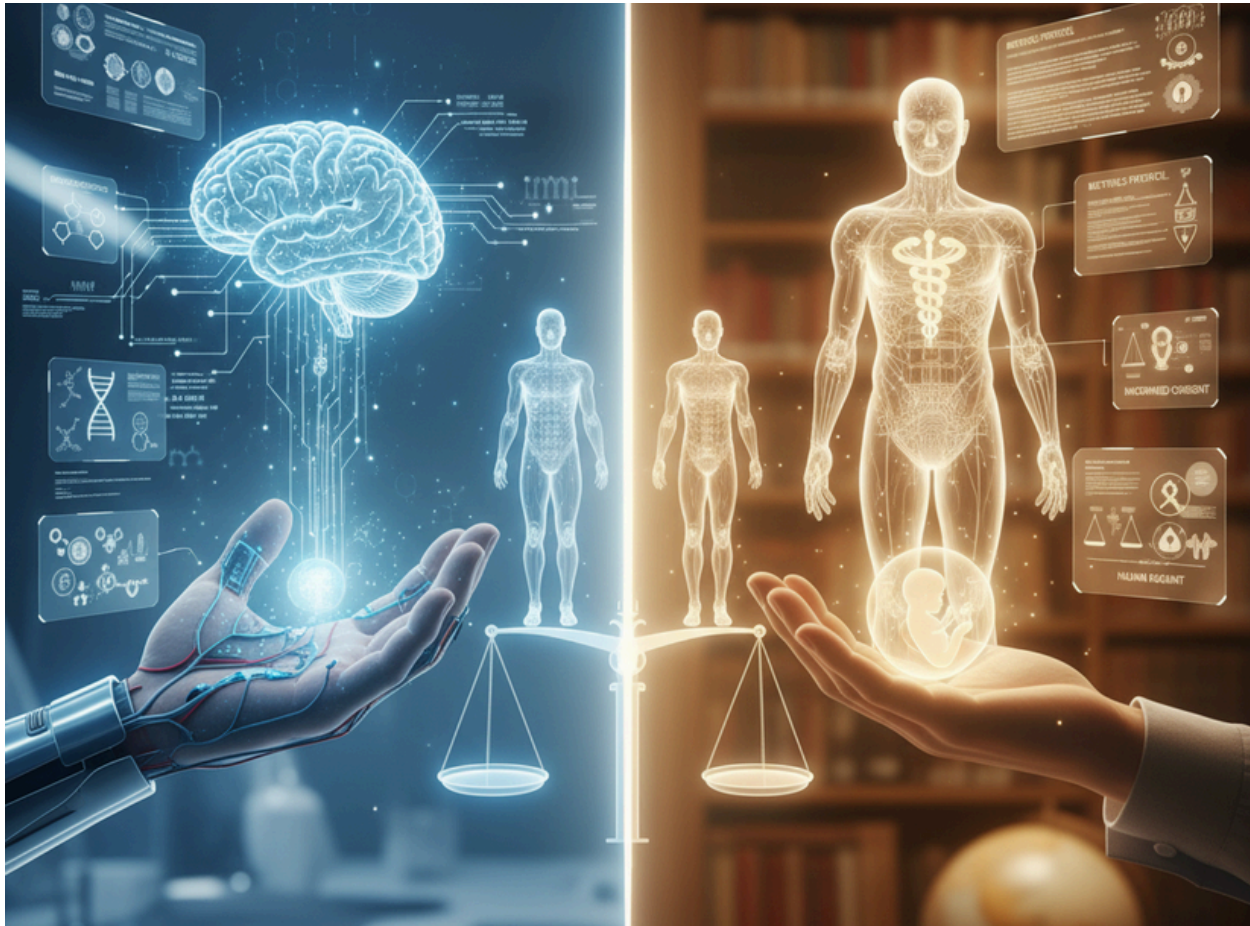

- Should AI replace teachers in classrooms?
- Should governments tax robots that replace human jobs?
- Can AI make fairer decisions than humans in justice systems?
- Should AI be allowed to generate music and movies commercially?
- Should AI art be exhibited in museums?
- Should humans rely on AI for emotional support?
- Should AI be used to write news articles?
- Should AI be banned in creative writing competitions?
- Should AI have access to personal medical data?
- Should autonomous drones be used in warfare?

13. Climate Change & Environmental Policy

- Should countries with high emissions compensate poorer nations?
- Should global carbon trading be mandatory?
- Should plastic packaging be banned completely?
- Should corporations disclose their climate impact reports publicly?
- Should climate denial be considered misinformation?
- Should governments ban private jets?
- Should space tourism be halted for environmental reasons?
- Should cities limit personal car ownership?
- Should renewable energy be subsidized 100%?
- Should oil drilling in the Arctic be banned?

14. Bioethics & Human Enhancement

- Should we extend human lifespan artificially?
- Should designer babies be banned?
- Should cloned humans have legal rights?
- Should parents choose their child's IQ genetically?
- Should genetic modification for intelligence be legal?
- Should aging be considered a curable disease?
- Should human embryos be used for stem cell research?
- Should we engineer humans to survive in space?
- Should we use biotechnology to enhance human strength?
- Should cloning extinct species be prioritized over conservation?

15. Digital Society & Cyber Ethics

- Should online hate speech be criminalized?
- Should children have social media accounts?
- Should governments ban anonymous social media use?
- Should influencers be held accountable for promoting scams?
- Should digital footprints determine employability?
- Should online relationships be considered real relationships?
- Should social media companies compensate users for data usage?
- Should tech companies be liable for AI errors?
- Should online comments require verified identities?
- Should schools ban smartphones entirely?

16. Psychology, Mind & Human Behavior

- Should mental health days be mandatory in workplaces?
- Should therapy be free for all students?
- Should governments fund loneliness prevention programs?
- Should social media filters be banned to protect self-esteem?
- Should children be banned from violent content until age 18?
- Should schools include emotional intelligence courses?
- Should hypnosis be recognized as a medical treatment?
- Should medication for ADHD be restricted to adults?
- Should mental health apps be regulated by law?
- Should therapy bots replace human counselors?

17. Education & Academia

- Should schools eliminate traditional exams?
- Should AI tools like ChatGPT be allowed in education?
- Should students learn about misinformation detection?
- Should unpaid internships be banned?
- Should attendance impact academic grades?
- Should schools operate year-round with shorter breaks?
- Should universities remove legacy admissions?
- Should college athletes receive academic scholarships only?
- Should universities focus more on skill-based learning?
- Should handwriting be taught in the digital era?

18. Law, Justice & Human Rights

- Should the voting age be raised to 21?
- Should life imprisonment replace the death penalty worldwide?
- Should surveillance for public safety outweigh privacy rights?
- Should hate crimes carry double punishment?
- Should non-violent offenders avoid jail sentences?
- Should prisons be replaced by rehabilitation centers?
- Should juvenile crimes be erased at adulthood?
- Should corporal punishment in homes be criminalized?
- Should parole depend on education achievements?
- Should prisons allow internet access?

19. Economics, Work & Globalization

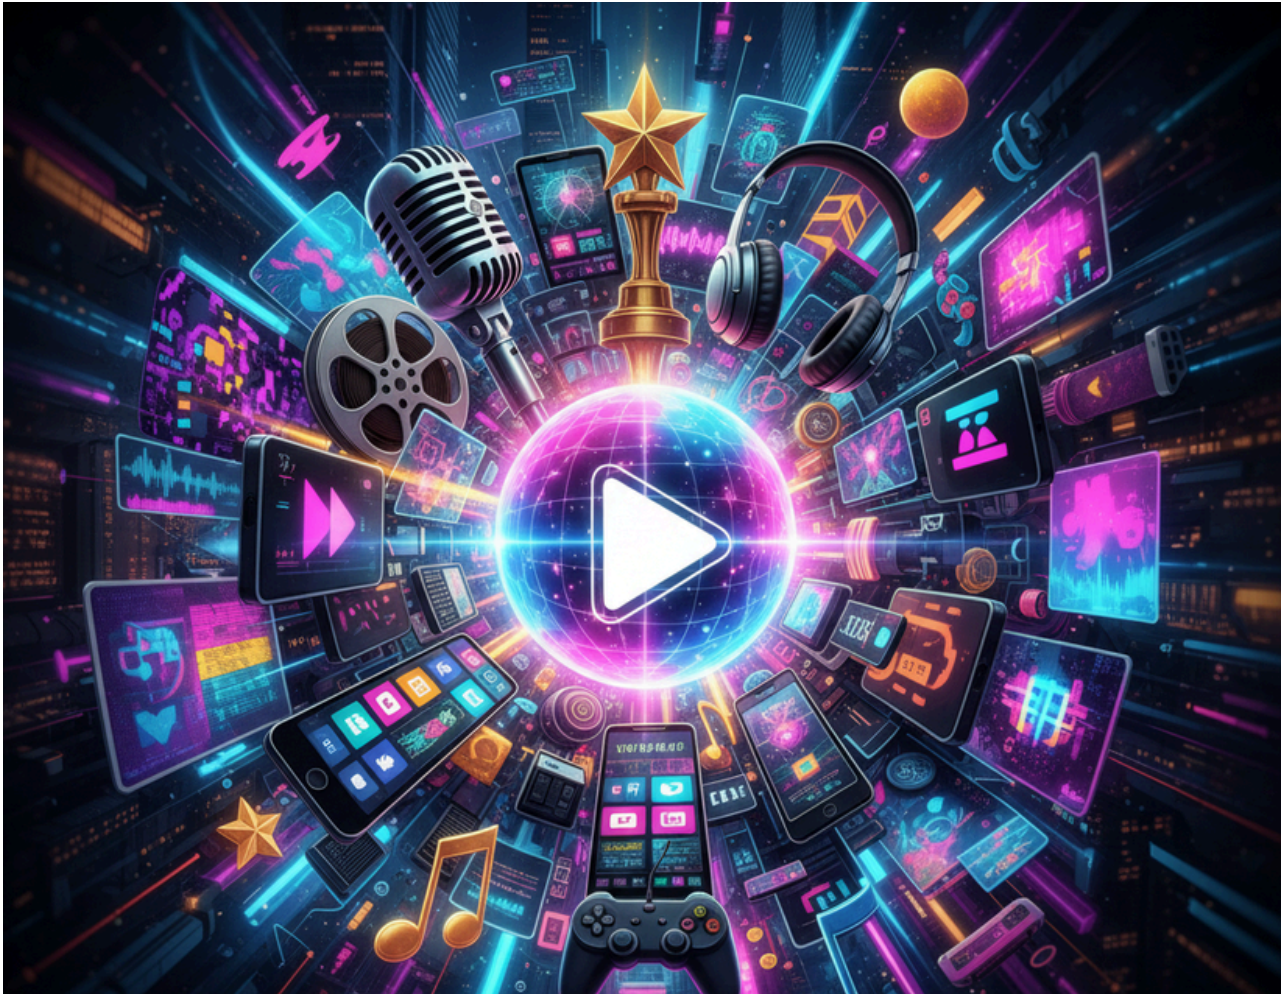

- Should governments introduce a four-day work week?
- Should gig workers receive the same benefits as employees?
- Should the stock market be taxed more heavily?
- Should cryptocurrencies replace paper money?
- Should small businesses receive tax immunity for 5 years?
- Should billionaires be forced to donate after a wealth threshold?
- Should universal basic income replace welfare programs?
- Should child labor be allowed in developing economies?
- Should remote work be considered a right?
- Should companies be fined for gender pay gaps?

20. Cultural Identity & Global Society

- Should English remain the global business language?
- Should cultural festivals be publicly funded?
- Should Western culture dominate global media?
- Should bilingual education be mandatory?
- Should traditional healing be integrated into modern medicine?
- Should ancient monuments be repatriated to their home countries?
- Should religion be kept entirely separate from politics?
- Should countries adopt global cultural holidays?
- Should indigenous languages be mandatory in schools?
- Should national borders be abolished in the future?

21. Media, Pop Culture & Entertainment

- Should celebrities be banned from political endorsements?
- Should streaming platforms regulate violent content?
- Should film awards prioritize diversity over performance?
- Should reality TV be considered harmful to mental health?
- Should social media algorithms be transparent?
- Should deepfake videos be banned entirely?
- Should musicians be punished for offensive lyrics?
- Should movies with stereotypes be removed from streaming sites?
- Should influencers disclose plastic surgery or editing?
- Should AI-generated movies be eligible for Oscars?
